Features

- Front mounted, built in cylinder.
- Force transmission by wedge hook
- Large through hole. No cylinder or drawtube to get in the way
- Air feed via distributor ring and SMW-profile seals, at stopped spindle
- Clamping pressure level constantly checked by a safety control system

Standard Chuck Equipment:

- 3 jaw chuck
- 2 elbow unions
- 12 mounting screws
- 1 lifting eye bolt
- 1 set t-nuts with bolts
- 1 set of soft top jaws

Big Bore Package Includes:

- Standard equipment
- Adaptor plate
- Distributor ring mounting bracket
- Basic air control system
